### THE *LONG ROAD* AHEAD

More than 500 people died and 15,000 were displaced by the Mentawai tsunami last October. Some lost everything - homes, family members, friends and livelihoods. Many are still living in temporary shelter up on the hills, in fear of another tsunami. SurfAid is working hand-in-hand with the communities to help rebuild their lives and give them confidence to face the future. **Together, we are in for the long haul.**
